Multi-Functional Bumper Stand

[Call for Pricing](#)

The GP363 Multifunctional Bumper Stand is the result of international advance repair concepts and years of experience in developing and designing repair equipment.

Specially designed for speed shops the GP363 Multifunctional Bumper Stand increases working efficiency and working conditions and shows a professional shop dedicated to quality results.

The Bumper Stand is practical, solid and simple to use, work efficiency is increased as the stand holds two work pieces that can be worked on simultaneously.

The telescopic design facilitates the working process and saves space.

The Bumper Stand is stable and can be moved quickly.

Dimensions : 1150 x 800 x 1060
