HEAT GUN HEAVY DUTY

[Call for Pricing](#)

CHARACTERISTICS:

- * Safe stand-free use for numerous tasks thanks to the stable stationary positions and rubber insert.
- * Variable temperature control and regulation, for versatile use even in continuous operation, always suited to the material being worked on.
- * Removable front ring enables working in tight corners and hard-to-reach places.
- * Ideally suited for dust-free removal of old paints, sealing, shaping plastics, drying new coats of paint or filler, repair welding of tents, boats and many similar jobs.
- * Glass protection nozzle.
- * Spoon reflector nozzle.
- * Cone nozzle.
- * Fish tail surface nozzle.
- * Steel paint scaper for all applications.

TECHNICAL:

Power Input: 2000watts
Operation Temperature : 50-600°C
Air Flow : 300-650 l/min
Weight : 0.85kg
Length x Height : 265 x 210mm
