## **C-TEK**

[Call for Pricing](#)

### **THE CHARGER WITH MAXIMUM POWER**

CTEK is the perfect choice for batteries that require quick charging, using its SUPPLY mode, the battery charger provides power even without a battery. The SUPPLY mode is indispensable when changing the battery

as you avoid losing difficult-to-restore program settings. Using RECOND mode, you can correct the acid stratification that often occurs in deeply discharged batteries. The battery thereby has its power restored and has a longer service life.

• Eight step, fully automatic switch mode model.

• Revives, charges, checks and maintains virtually all types of 12V lead-acid batteries (Wet, MF, GEL and AGM)

from 50Ah to 500Ah.

• Desulphation mode with pulses.

• Soft start for severely discharged batteries.

• Recondition mode with controlled top charging recovers the capacity of a severely discharged battery.

• Maintenance pulse charging increases battery life and gives superb performance.

• Supply mode for use as a power pack, battery backup (UPS) or float maintenance.

• Charges even drained batteries.

• Low back current drain, low ripple and input voltage independent (220-240V)

• High efficiency: 85%

• Compact design with mounting holes for permanent assembly.

• 2 year warranty.
