HURRICANE YS-300C Prepdeck

[Call for Pricing](#)

Technical Data	
Description	Data
Extrenal Dimentions	7550mm x 3550mm x 3100mm (L x W x H)
Internal Dimentions	6300mm x 3450mm x 2700mm (L x W x H)
Plenum Dimentions	6300mm x 3450mm x 400mm (L x W x H)
Basement	300mm galvanised steel basement, full grids made by flat bar and round steel, then galvanised. 2 x ramps 750mm wise x 2000m long.
Room Body	Back wall with 50mm EPS wall panels, other three sides with PVC curtains.
Lighting System	Ceiling Lights 8Units x 4pcs = 32pcs of 36W Tubes with electronic ballasts
Generator Possition	Exhaust air from rear side, galvanised steel moulding frame, white coated steel cover.
Intake System	1 x 5.5KW double intake centrifugal fan with Air capacity of 15500m3/h
Exhaust System	1 x 5.5KW double exhaust centrifugal fan with Air capacity of 15500m3/h with manual damper for exhaust air
Heating System	Riello G10 Burner, with stainless steel combustion chamber, max heating capacity 100000Kcal/h
Maximum Working Temperature	25 Degrees Celcius
Filtering System	Ceiling Filter and Exhaust fiberglass filter.
Roof Plates	Galvanised steel plates
Control system	Fan operation switch, Temperature controler, Ligting switch and Emergency stop switch.
Plenum Suspension	Suspending steel hoof from the roof of the building.
Exhaust Air Capacity	15500m3/h
Frequency of Air Exchange	264 times per hour
Illumination	> 800 Lux
Noise	
Total Power	12.2KW
