UA400W Spraygun Cleaner

[Call for Pricing](#)

- *Automatic, Top loading unit, cleans 2 guns at a time.
- *Uses high pressure water to clean both the paint channel and exterior of the guns in less than 30 seconds, followed by push button clean rinse and partial air drying which is then followed by final manual drying with an air blow gun.
- *Includes a flow-through brush for manual cleaning of gun exterior.
- *Top loading, cleans 2 guns at a time.
- *Machine cleaning is faster and more consistent with less exposure to paint residue compared to manual cleaning.
- Ideal for cleaning PPS and other disposable cup adaptors.
- *Diaphragm pump uses 58Litres per minute and pumps 12 Litres of water per minute at 85PSI.
