Colour Heating Box GP-610

[Call for Pricing](#)

The Hurricane GP-610 Colour heating box has been specially design to heat and dry colour-test sample templates.Â

The powerful shortwave infrared lamp is energy efficient and perfect for heating and drying small colour templates.

Dimensions of the GP-610 Colour heating box are 425mm x 335mm x 385mm.

The box uses 2 x 300w shortwave infrared bulbs and has a weight of 10kg.

The GP-610 Colour heating box is constructed of stainless steel, pressure moulded to ensure a durable structure that is appealing.
