## **Infrared Paint Dryer GP-369**

[Call for Pricing](#)

The Hurricane GP-369 short-wave infrared paint dryer is a six tube unit which is capable of 6000W output. The core component of this infrared paint dryer is a highly intensive short-wave infrared heating tube. Painted surfaces can be dried in as little as 15~30 minutes.

The Hurricane GP-369 short-wave infrared paint dryer also has timing, temperature regulation, temperature setting functions and tubes can be activated in pairs depending on the surface area to be dried.

Technical Data	
Description	Data
Working Current	17A
Power Consumption	6 x 1000W
Heating Distance	400mm
Heating Area	2000 x 1200mm
Working Voltage	380V 50/60Hz
Priming Heating Time	10 minutes
Surface Heating Time	15 minutes
Size	1600 x 1150 x 2500mm
